

New Cleanroom laundry facility

Spring Grove Services Ltd, Ireland's leading supplier of textile based rental services, have recently opened a new cleanroom laundry facility at its existing Cork facility. The service will be available throughout Ireland.

This new service, trading as Spring Grove Cleanroom, is provided from the most modern cleanroom laundry in the country which was developed following extensive research of market requirements and best operating practice throughout Europe. Employing the most advanced technology the facility is validated to ISO 5 (Federal Standard 100) to meet the exacting needs of the pharmaceutical and medical device sectors up to GMP Class A. All aspects of the operation are driven by the company's commitment to operational excellence and this is evidenced by the extensive training that staff have undergone.

Commenting on this development Nigel O'Leary, Business Development Manager, had this to say: 'We believe that we have a unique product to offer this market. In addition to providing superior processing standards our commitment to customer service and real value for money is unmatched. We extend a warm invitation to users of cleanroom laundry services throughout Ireland to audit our facility and learn about our superior service and competitive pricing'.

For more information Nigel can be contacted on 087 2032934 or at nigel.o'leary@springgrove.ie
